Zero Downtime Continuous Deployment of Java Web Applications
Fabiane Bizinella Nardon

@fabianenardon

If you think your work is finished when your application is in production, you're wrong. That is when the most stressful moments will come.
We are going to learn

1. How to do continuous deployment with zero downtime
2. How to monitor your application in production
3. How to debug your application in production

Demo

JavaEE App

REST + JSF

ElasticSearch

MongoDB

Demo
