Sales system

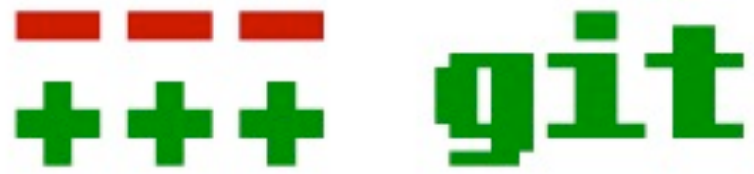

- Application server
- Thick clients

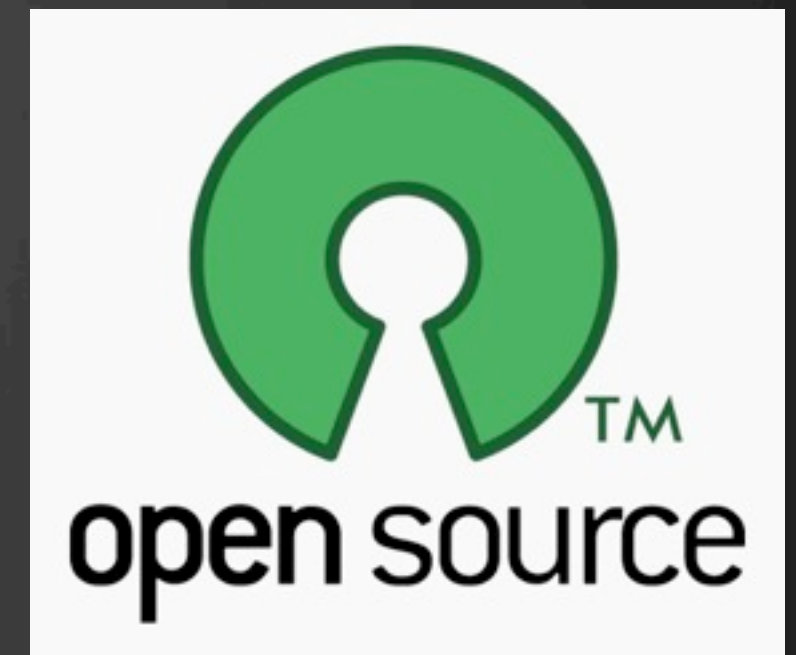

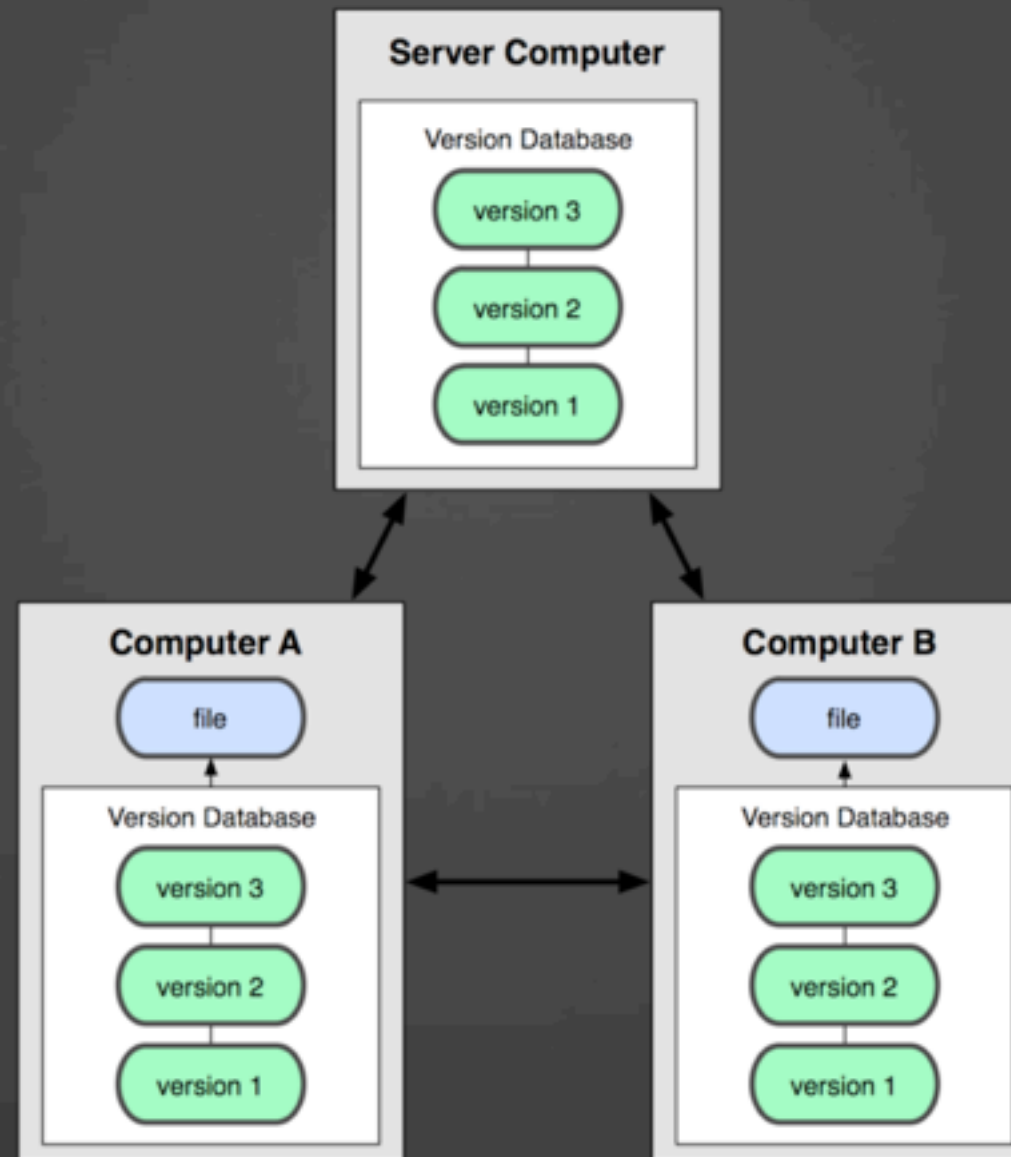

Challenges

- Distribution and deployment
- Test vs production
- Configuration management

to the rescue!

Git deploy!

- Centralized control
- Self-updating clients
- Pre-distribution

Challenges

- File locking
- File rights
- Testing

Some numbers

	# Releases	WC size	Repo size
Sales client	41	70 MB	111 MB
Server	32	137 MB	274 MB

Git FTW!

- Control
- Small change
- Less work - more play!
