Introduction

Welcome to the JDK Bug System

The JDK Bug System (JBS) is a JIRA instance which provides bug tracking for Projects in the [OpenJDK Community](#).

Everyone with OpenJDK Author status or above has a JBS account which may be used to create and edit bugs. Those without accounts can view bugs anonymously.

See the [OpenJDK wiki](#) for information on using the system. For help in resolving access problems send email to help@openjdk.java.net.
