

DevOps
Deconstructed

Leonard Gram

Backend Developer  Grafana Labs

Ex. Lead SRE  MOJANG

DevOps huh?

Two teams and a dropped ball

Enter DevOps

**DevOps is about dev and ops people working
together**

Site Reliability Engineer

DevOps Engineer

DevOps Team

Sysadmin

Hiring for DevOps

How different companies do it

But what about all the tools

Docker and Serverless

But where's my magical silver bullet?

You and production

Thank you!
